Living at EVMS Campus Housing has been the best possible way to get to know the EVMS campus and the surrounding area. The apartments are close to downtown Norfolk, and there are numerous restaurants and fun things to do within walking distance. Being so close to the campus gives me so much peace of mind and saves me a great deal of time. By having my front door essentially on campus, I can allocate more time to studying and doing things I enjoy instead of commuting. The apartments are very clean and were renovated in 2022, with everything from the floors to the appliances being completely new. In addition to the physical comforts of the apartment, the other tenants in the apartment complex are absolutely wonderful. Everyone is so kind, and the community

feels so welcoming and safe. I would absolutely recommend campus housing to anyone interested!

When I first decided to move into campus housing, I was a little apprehensive because I was unable to see them prior to moving in. However, upon arrival and going into my apartment for

the first time, I was pleasantly surprised by the cleanliness, space, and set up. The application was straight forward and the Campus Housing staff members were extremely helpful throughout the entire process. Because the complex is associated with EVMS, they are able to provide a lease term that goes along with the academic schedule which helps alleviate a lot of stress. At the end of a long day it's nice to come back to a comfortable home and for the proximity to campus, quality, lease length flexibility and cost, it is a hard place to beat.

Moving into Campus Housing has probably been the best decision I've ever made as an EVMS medical student. Living across the street from the hospital and school not only saves time on my commute, but I go to more lectures, events and am a more involved student as a result. Apart from enhancing my education, the apartments were completely renovated with luxury in mind. Granite, wood, fresh paint, high-end appliances and a very spacious living area await all residents. The housing manager is wonderful to work with and she really has her students and tenants in mind with all she does. I entirely recommend choosing EVMS Campus Housing for your living needs and for your education as a whole.

My time in campus housing has been amazing.

It's super convenient to live so close to campus, and the YMCA is just an easy walk down the street.

The interior is very homey and makes a great meeting place for friends after lectures. The housing manager is incredibly helpful as well, and

she was very communicative throughout a recent renovation process.

I'd highly recommend Campus Housing to anyone that's looking for a nice place with a short commute to EVMS.
